#### Pt. 17

changed only by modifying the agreement itself and not by individual orders issued under it. Modifying a basic ordering agreement shall not retroactively affect orders previously issued under it.

- (d) Orders. A contracting officer representing any Government activity listed in a basic ordering agreement may issue orders for required supplies or services covered by that agreement.
- (1) Before issuing an order under a basic ordering agreement, the contracting officer shall—
- (i) Obtain competition in accordance with part 6:
- (ii) If the order is being placed after competition, ensure that use of the basic ordering agreement is not prejudicial to other offerors; and
- (iii) Sign or obtain any applicable justifications and approvals, and any determination and findings, in accordance with 1.602-1(b), and comply with other requirements, as if the order were a contract awarded independently of a basic ordering agreement.
  - (2) Contracting officers shall—
- (i) Issue orders under basic ordering agreements on Optional Form (OF) 347, Order for Supplies or Services, or on any other appropriate contractual instrument;
- (ii) Incorporate by reference the provisions of the basic ordering agreement;
- (iii) If applicable, cite the authority under 6.302 in each order; and
- (iv) Comply with 5.203 when synopsis is required by 5.201.
- (3) The contracting officer shall neither make any final commitment nor authorize the contractor to begin work on an order under a basic ordering agreement until prices have been established, unless the order establishes a ceiling price limiting the Government's obligation and either—
- (i) The basic ordering agreement provides adequate procedures for timely pricing of the order early in its performance period; or
- (ii) The need for the supplies or services is compelling and unusually urgent (i.e., when the Government would be seriously injured, financially or otherwise, if the requirement is not met sooner than would be possible if prices were established before the work

began). The contracting officer shall proceed with pricing as soon as practical. In no event shall an entire order be priced retroactively.

SOURCE: 48 FR 42231, Sept. 19, 1983, unless otherwise noted.

### 17.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies and services through special contracting methods, including—

- (a) Multi-year contracting;
- (b) Options: and
- (c) Leader company contracting.

# Subpart 17.1—Multiyear Contracting

Source: 61 FR 39204, July 26, 1996, unless otherwise noted.

#### 17.101 Authority.

This subpart implements Section 304B of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 254c) and 10 U.S.C. 2306b and provides policy and procedures for the use of multiyear contracting.

#### 17.102 Applicability.

For DoD, NASA, and the Coast Guard, the authorities cited in 17.101 do not apply to contracts for the purchase of supplies to which 40 U.S.C. 759 applies (information resource management supply contracts).

#### 17.103 Definitions.

As used in this subpart—

Cancellation means the cancellation (within a contractually specified time) of the total requirements of all remaining program years. Cancellation results when the contracting officer

- (1) Notifies the contractor of non-availability of funds for contract performance for any subsequent program year, or
- (2) Fails to notify the contractor that funds are available for performance of

the succeeding program year requirement.

Cancellation ceiling means the maximum cancellation charge that the contractor can receive in the event of cancellation.

Cancellation charge means the amount of unrecovered costs which would have been recouped through amortization over the full term of the contract, including the term canceled.

Multiyear contract means a contract for the purchase of supplies or services for more than 1, but not more than 5, program years. A multiyear contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multiyear contracts and multiple year contracts is that multiyear contracts, defined in the statutes cited at 17.101, buy more than 1 year's requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.

Nonrecurring costs means those costs which are generally incurred on a one-time basis and include such costs as plant or equipment relocation, plant rearrangement, special tooling and special test equipment, preproduction engineering, initial spoilage and rework, and specialized work force training.

Recurring costs means costs that vary with the quantity being produced, such as labor and materials.

[48 FR 42231, Sept. 19, 1983, as amended at 66 FR 2129, Jan. 10, 2001; 67 FR 43514, June 27, 2002]

#### 17.104 General.

(a) Multiyear contracting is a special contracting method to acquire known requirements in quantities and total cost not over planned requirements for up to 5 years unless otherwise authorized by statute, even though the total funds ultimately to be obligated may not be available at the time of contract award. This method may be used in sealed bidding or contracting by negotiation.
